

## **OXFORDITE'S PERSPECTIVE**

I would like to take this opportunity to share with you some of my experiences with The Oxford College of Science whilst I was perusing B.Sc. Electronics and Computer Science from there. Structured lecture classes on theoretical topics and enough emphasis laid on real world examples for students to grasp the subject thoroughly. This teaching methodology led to curiosity and invoked passionate technical conversations amongst peer students both in the classroom and offline. Assignments given were aimed at ensuring students were prepared for the course topic covered during the subsequent class, timely recognition and appreciation of students who completed their assignments, harnessed a culture of healthy competition and made us competitive on the subject. Gayathri Mam was always available to coach and guide when in need."A Big Thank You and Heartfelt Gratitude" to the college in playing such a pivotal part in my career spanning 16 years.

**B.Sc. EMCs**  
**2004-2007**

The Oxford College of Science is one of the finest colleges in Bangalore. The faculties are very supportive and knowledgeable. Ample lab facilities, latest equipment make this College a standout from rest of the colleges in Bangalore. Friendly, co-operative teachers and faculties make the environment homely. I have been a witness of this wonderful family. Thank you TOCS and the Department of Electronics for making me what I am today.

**M.Sc. Electronics – 2013-2015**

I am SELVA SUBRAMANIAN E graduated in B.Sc.(CZBt) in the year 2019 from prestigious The Oxford College Of Science, HSR Layout, Bangalore. I feel like one of my own talking about our college and Department of Biotechnology. Academics are strictly followed regarding proper attendance, guidance and completion of syllabus. Faculties are well qualified and knowledgeable, helpful too in mentoring. Apart from academics, extracurricular activities and fests are conducted that gather all kinds of talent and enhance the cultural activities.

**SELVA SUBRAMANIAN E**  
**B.Sc. -CZBt**  
**2017-2019**

I completed my Bachelor's triple major and also Masters degree in this college. The Department of Biotechnology provides a professional and friendly learning environment, with effective teaching methods. Professors are experienced, helpful and encouraging. Administration and other common facilities are very good, Laboratories are well maintained. Hands on workshops, guest lectures and conferences are regularly conducted. Fests and other cultural events are well organized by the college along with students. They provide great opportunity for the students to come up in both curricular and co-curricular activities.

**M.Sc. Biotechnology**  
**2017-2019**

The Oxford College of Science resides in the hamlet of golden memories of my life. A journey of 5 years with Oxford has neck laced me with valuable knowledge towards the dynamic discipline of life sciences which I treasure eternally. I Ms Manisha Mukherjee always associated my identity as an Oxfordite with the amulet of pride. The inception of this temple of learning took place in the year 2012 wherein I enrolled for BSc course with combinations of Microbiology, Genetics and Biochemistry. Followed by this I pursued masters in biochemistry from Oxford college for the academic years of 2015-17. My artistic spectrum directed towards my college would paint innumerable words in a never ending manner. Therefore Oxford College is the sanctum sanctorum of my life that flourished the sense of patriotism in me and I ascertained myself. If there is any place on earth that gives me solace then the Oxford College of science is second to none. I still bear the oath that I took on the convocation day and try to stand by its doctrine and ethics and nourish myself accordingly. Thank you Oxford for offering a time of resplendence in my life.

**Ms Manisha Mukherjee**  
**B.Sc BcGtMb – 2012-2015**  
**M.Sc. Biochemistry - 2015-2017**

My journey with The Oxford College of Science has been the two best years of my live. It has helped me with my professional and personal development. The college has the required infrastructure. The curriculum of the college is beneficial for one's professional growth. The professors are extremely cooperative and supportive. The laboratories are well equipped and well maintained. There are multiple seminars, conferences and extracurricular activities occurring in the college which helps students to keep a link with the outside world. Overall, my experience with The Oxford College of Science has been knowledgeable, enjoyable and memorable.

**Imon Roy**  
**M.Sc. Biotechnology**  
**2017-2019**

Being an Oxfordian I thank each and every teaching and non-teaching faculty of taking such a great efforts for creating a brighter future of all of us. These 2 years were n will always be the best part and the most memorable time in my whole life.. I not only had a great faculty to rely on but also made great friends for lifetime.. I always used to get carried away with the friendly atmosphere in the campus and in the classrooms too. I had lived my whole life in these 2 years and will always cherish those moments for the rest of my life. Thankfully an Oxfordian..

**Abhishek Bhati**  
**M.Sc. Biotechnology**  
**2013-2015**

“It is one of the most esteemed institutes and I am very proud that I was a part of it and was a place where we had the opportunity to explore our knowledge and got to experience the top of the class equipment in our lab. However there not enough words to express my gratitude to my almamater”

**Rakesh Kumar**  
**M.ScBiotechnology**  
**2011-2013**

I had a lot of fun in college, especially in the Microbiology department. I remember, my journey with the department started with games and laughter and ended with the same. The department organized so many fests for us students. Teachers worked really hard for making everything fun and enthusiastic for the students. Micro mania season was the best!. The workshops like Molecular DNA technology, Virology techniques, Biogas production, and could never forget the Wine production and the festival. The college is all about finding happiness and Enthusiasm in everything. Whether it's academics or extracurricular activities. I want to thank you all teachers for such pleasant times.
