| 4 | Organizing Secretary/ Co- Coordinators | Mr Charan Yadav |
| 5 | Participants | B.Sc. Physical Science Students |
| 6 | No of students and staff present | 35 students, 4 staff |

The AI Club of our college enthusiastically celebrated **E-Ganesha Chathurthi on 28th August**, combining tradition with technology in a unique and eco-friendly manner. The highlight of the celebration was the **Electrical Ganesha**, a symbolic representation crafted using electronic components and circuits, reflecting the innovative spirit of the club.

The event aimed to promote environmental consciousness by avoiding traditional Plaster of Paris idols, while also showcasing the creative applications of AI and electronics in cultural contexts. The celebration included a brief ceremony, devotional music, and a short presentation by AI Club members explaining the concept behind the E-Ganesha. The event concluded on a sweet note with the distribution of sweets to all attendees.

The initiative successfully blended cultural heritage with modern innovation, setting a benchmark for responsible and creative celebrations in the academic space.
