4	Organizing Secretary/ Co-Coordinator	Mr Charan Yadav
5	Participants	B.Sc. Physical Science Students
6	No of students and staff present	35 students, 6 staff

The **Raman-Currie Corner Activity** was conducted on **4th September** for **5th semester Electronics students** in **Room No. 008** to encourage creative learning and peer engagement. As part of the activity, students prepared informative and visually appealing charts on scientific topics, including concepts from their syllabus. These charts were displayed in the Raman-Currie Corner, transforming the space into an interactive educational zone. Students also explained their charts to their juniors, promoting a healthy culture of knowledge sharing and peer teaching. The activity enhanced students' research, presentation, and communication skills. It received positive feedback from both juniors and faculty, who found the session engaging and educational. Given its success, such activities are recommended to be conducted regularly in future semesters.
