

Department of Biochemistry  
Testimony from Students

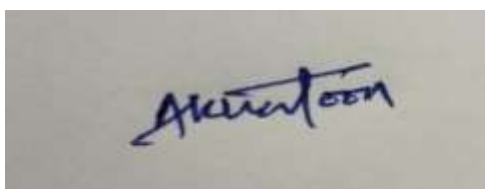

Ms. ALEYA KHATOON (M.Sc Biochemistry)

As a student pursuing MSc Biochemistry at The Oxford College of Science, it is an excellent choice for students passionate about biochemistry. The knowledgeable and supportive faculty encourage critical thinking and hands-on research. Well-equipped labs and advanced technology make practical learning engaging and relevant.

In my opinion, one of the highlights is that our college concentrates on both theoretical and practical skills, providing experience in subjects like molecular biology, clinical biochemistry, and enzymology. The college also offers strong industry connections and internships, easing the transition into biotechnology, medicine or academia.

If you seek a challenging yet rewarding biochemistry program, this is the perfect place to learn, grow and explore endless career opportunities.

**Name:** Naveen C V

**Reg. No.:** P03MS22S020007 (M.Sc in Biochemistry)

I'm **Naveen C V**, an alumnus of the Biochemistry Department at **The Oxford College of Science**, and I wanted to share my incredible journey here. Reflecting on my time at this esteemed institution, I can confidently say that it was more than just a college experience—it was a transformative phase of my life.

#### **My Personal Experience:**

During my time here, I had the opportunity to work on workshops conducted by the department and other skill enhancement programs. The hands-on experience and the encouragement to think critically and innovate were invaluable.

If you're passionate about biochemistry and looking for a college that nurtures curiosity, innovation, and excellence, I wholeheartedly recommend The Oxford College of Science. It's a place where you don't just learn—you grow.

#### **Why Choose Biochemistry at TOCS?**

- **Outstanding Faculty:** The professors are not just educators but mentors who are deeply passionate about their subjects. Their guidance has been instrumental in shaping my academic and professional growth.
- **State-of-the-Art Facilities:** From advanced laboratories to extensive research resources, the college provides an environment that fosters learning and discovery.
- **Dynamic Campus Life:** Beyond academics, the vibrant campus life with diverse clubs and activities helped me develop essential soft skills and lifelong friendships.
- **Career Opportunities:** The College's strong network with industry partners and research institutions opened doors for internships, workshops, and job placements.

Ms. B DHARNI RAO, (M.Sc Biochemistry)

I am pursuing MSc Biochemistry at The Oxford College of Science. This Department is known for its vibrant academic environment, qualified staff and commitment to research and teaching excellence. Our college focuses on both theoretical knowledge and practical skills.

Department of Biochemistry conducts various informative and knowledgeable workshops and guest lectures which help students to build their interest in life science.

If you are looking forward to pursue your career in the field of Biochemistry, this is the perfect place to grow and explore your interest.

Ms. Unnati Kadu (M.Sc Biochemistry)

The Oxford College of Science is one of the renowned college in Bangalore for MSc programs. I'm pursuing my masters in Department of Biochemistry at this college.

The Department has experienced faculty and a curriculum that blends theory with hands-on research which provide the perfect environment for students academic and professional growth. They have well equipped laboratories which make practical learning exciting and relevant to real world application.

They offer recommendations to students for projects and internships in the field of Life Sciences.

Department encourage and train students for interviews, providing campus placements. I highly recommend to join TOCS if you want an excellent career in the field of Biochemistry.

**Shreya Patra**

P03MS22S020039

M.Sc. Biochemistry  
(2022-2024)

I had the privilege of being part of the Department of Biochemistry at Oxford College of Science, it was truly a transformative experience.

The faculty's mentorship, guidance and encouragement helped me to grow both academically and personally.

The labs in our Department is well-equipped, making practical learning engaging and fun. The course combined theory and practical covering specialized area like Molecular Biology, Clinical Biochemistry, Immunology, Genetic Engineering.

The Department conducts seminars, workshops, webinars, guest lectures, problem-based learning, conferences, skill development program that focuses on overall development of a student that helped me to prepare for future careers.

I am grateful for the knowledge, skills and networks gained during my time at Oxford College of Science.
